IMPORTANT TO AUTHORS AND PUB LISTERN. -- Authors and publishers, say: the New Orleans Bulletin, do not appear to be aware that, by a recent law of Congress, their copyright cannot be secure unless they furnish a copy of their work to the librarian of Congress and to the Librarian of the Smithsoniian Institute. As very few have been received by these officers, it is evident that hundreds of alleged copyright books are without that protection.

07 The death of the late President is announced in the Kingston (Canada) papers, with the marks of mourning usually adopted by the American Press-turned rules. The American vessels in the harbor displayed their colors at half-mast, on the reception of the intelligence.

AMERICA is now one of the chief supports of England. It is stated that the money sent by frish emigrants to their starving relatives equals the whole of the Irish poor rates. Some two millions of the people of England are supported by the American trade.

LAMENTABLE SUICIDE OF A YOUNG LADY.-Night before fast, about 11 o'clock, a young lady, daughter of Jospen A. Kean, a wealthy gentleman of Corington, went to the ferry boat that crosses to Western Row on this eide, and just after the boat pushed out into the stream, the young lady unped in and was drowned. The body was recovered about 10 o'clock yesterday morning. No cause is known, but it is supposed that love was at the bottom of it. She was a beautiful and accomplished young lady .- Cincinnaci Gaz., July 16.

The Handsomest, Cheapest, and Best Asticle MARSH'S PATENT OIL.

MARSH'S PATENT OIL.

THIS is a new invention, recently introduced, and how very extensively used by the public.

Mr. Marsh is constantly receiving, Hattr at home and from abroad, the very highest testimenials of the true needs and great superiority of his new Oil, over everything before used for light.—Among them we relect the following:

MARSH'S PATEST OIL.—This is the name given to a newly invented Oil, for producing light, which less just been introduced to the public by Mr. Marsh. Having tried it curredwes, we can speak from experience, and do not heritate to award it a high order of meril. It is notirely free from grease or entil while burning, and is not listed to be to the too common objection of almost all haming fluids, that of explosion. It gives a beautiful multisteady light, is unpol heristomer than oil, and rosts lers. For a slight expense, common glaze lamps may be fitted with new tubes, and the oil burni in them.

We reconstruct a trial to those who would obtain a beautiful light.—(Baston Journal.)

CONCENTRATED SYRUP OF SARSAPA

It is a undeniable fact that no medicine ever trought before the public, has proved so beneficial incases of diseased Blood, Liver Obstruction, Scrofulous Taint, Consumptive Habit, and all entancous affections, as that of Dr. Corbut's!

The distinguished Pmf. Huyes anys:—"It ought to have a preference, as the formula exhibits the union of some of the best of our native medicinal roots and plants with substances of the highest ropate as remedial agents, and does not include any Metallic Compound.

But read what Draggists say, whose well known characters give full asturity to its virtues.

"The Compound Concentrated Symp of Sarsaparilla, made by the United Society of Canterbury, a prepared with great care, and the increasing demand for it is positive proof of its good effects. It is now prescribed by most of the Phyricians in Boston and elsewhere, which is the best evidence that they give it a preference over any other presentation of Sarsaparilla offered to the public.

"Since its introduction, its reputation has been constantly increasing, and its pepularity extending in every direction, being recommended by most dilatinguished physicians.
